Press Information

Especially in the fields of Marine Equipment and Shipping, which are becoming more important on Economic growth in Asia including Singaopre, it is regarded as essential to reduce the load on Environment.

VOLCANO proposes its "Environmental load reduction technology" in order to "Keep Sky Blue" and to "Keep Sea Clean".

As fruits of VOLCANO's "Environmental load reduction technology", the products for LNG fueled vessel and "a completely closed system" for concentrating Waste Oil/Bilge are already supplied by VOLCANO. "A completely closed system" realizes "Zero Discharge to the Ocean". This system is called as Waste-Oil/Bilge Concentrator"BILCON-X".

Mr.Tatsuya Inaba, Chief of Sales Dept., Combustion Engineering Div., VOLCANO, explained, "We have 90 years history and more than 36 years' sales record on LNG fueled boiler-burners for more than 180 LNG carriers or LNG fueled vessels. We prepared well for coming LNG fueled vessl Era. In Singapore, We have three after-sales-service agents and are supplying service parts through Japanese excellent Trading companies in order to support the respected customers. We also propose our products through Singaporean and Japanese buisness partners for new shipbuilding. In addition, we announce information about maintenance on our Web site and are attending exhibitions and seminars in Singapore. We are closely related with Singapore. In the period of Asia Pacific Maritime 2018, I'd like to build relationship with customers who have their base around Singapore area."

VOLCANO welcomes the respective visitors at this Seminar and at Japan pavilion in the exhibition..
